## ABOUT US

An experienced, highly capable provider of high-quality key blanks, key machines and related security equipment to locksmiths, national fleets and government service agencies, HATA has earned an excellent reputation through prompt, dedicated service.

HATA carries full certification under all of these vital categories:

- 8(a) Business Development
- Disadvantaged Business Enterprise (DBE)
- Minority Business Enterprise (MBE)
- Small Business Administration (SBA)
- Veteran-owned Business

Customers receive real advantages because of our certifications, but the main reason so many industry and government leaders choose HATA is quality. HATA means superior products, a comprehensive inventory enabling shipment within 24 hours, and expert, personal attention to individual customer needs. Since 2000, our customers have chosen us not primarily for our certifications, but because of the caliber of products and services HATA offers.

### LOCKSMITH INDUSTRY

Locksmiths nationwide count on HATA for immediate service and delivery. Normal turnaround is 24 hours or less from your call, for outstanding key blanks, key machines, locksmith software and tools from Framon, a premier maker of locksmith products.

### NATIONAL FLEET ACCOUNTS

#### HATA Products and Services for National Fleet Accounts

Leading national fleets count on HATA for immediate service and delivery. Normal turnaround is 24 hours or less from your call, for outstanding key blanks and key machines from premier manufacturers. We also provide instant service on a wide range of support products including lighters, window markers, oil-filter crushers and much more. HATA is your single source – fast, convenient, dependable - for all these fleet needs!

### GOVERNMENT SERVICES

#### Secure. Accurate. Reliable. Security Products from HATA.

HATA is the standard-setting supplier of security products to purchasers in federal and state government. In part that's because of our huge inventory of outstanding products meeting applicable Mil-Spec standards. In part it's thanks to our certifications, but most of all, it's because of the superior service HATA customers have come to expect. Our commitment to ship within 24 hours is only the beginning. Our service is expressed in expert, personal attention to individual customer needs, with a special understanding of the challenges faced by government buyers.

How much time and money do you spend having your keys cut by the dealership or locksmiths? Take back your profits with HATA keys and Framon key machines! We have the machine you need—from an inexpensive duplicator to the industry leading automatic code cutter, the FRA-2001. Also, take a look at our Sidewinder high security machine—an incredibly accurate, economical way to cut side-milled keys such as those used by BMW, Honda, Lexus, and Mercedes—not to mention Chrysler Crossfire, and some Kia/Hyundais. All of our key machines are made in the USA by professional locksmiths/machinists—guaranteed to be the toughest, most accurate machines available.

## FRAMON FRA-2001 COMPUTER DRIVEN KEY MACHINE

(Without Laptop)

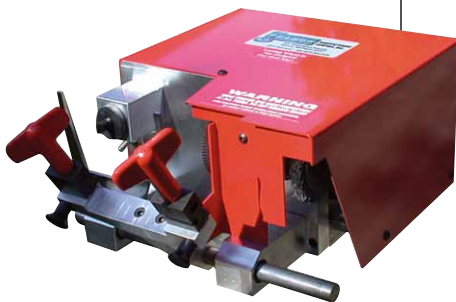

Do you currently employ someone else's automatic code machine? Have you grown tired of dealing with poor tech support, sub-par software updates, and the expense of mis-cut keys? Step up to the FRA-2001, and find out what locksmiths and dealerships already know. Framon is, and always has been the leader in high-quality, accurate key generation. We've built the toughest automatic machine money can buy, and coupled it with the most comprehensive, easy to use key code software ever—Genericode! The machine is aluminum and steel, with sealed ball bearings, a reversible vise, and a motor that's simply overkill. The integrated processor carries a lifetime warranty—believe it when we say this machine is in it for the long haul. The software has every key code you'll ever need, plus key blank and transponder information, vehicle opening how-to's, a key blank cross-reference, and much more. Most importantly, Framon has consistently been the first to release new, updated info to all our customers, and is known throughout the industry to offer unmatched technical support for all of our equipment. If automatic key generation is what you want, the FRA-2001 is what you need!

## FRA-2001-HM

(Laptop Included)

## FRAMON MD-1

When you need an inexpensive machine, but demand high quality, look no further than the Framon MD-1. As with all of our machines, the MD-1 is built using aluminum and steel construction, sealed bearings, and a high-torque motor that insures you'll be using it for years to come. We also include a wire deburring brush. Utilizing reversible vises, this machine will accommodate any key you're likely to come across. The MD-1 also carries Framon's one year parts, labor, and freight warranty!

## FRAMON EXPRESS EXP-1

Faster than a bullet, stronger than a train—the Express is the ‘Superman’ of key duplication equipment. This semi-automatic duplicator is at the top of its class, using the same steel/aluminum construction, sealed bearings, reversible vises, and high-torque motor as the rest of the Framon family. The twist comes in the form of a spring-loaded carriage and a 3 1/8” M-42 high speed steel/AlCn coated cutter. A quick flip of the lever is all it takes to cut one side of the key! The best part is, the Express does this quietly, with accuracy to .0005”—half of one thousandth! Did we mention the unequalled Framon warranty?

**DISCLAIMER:** EXP-1 will not leap tall buildings...

## FRAMON DC-300

**The Question:** Is there an inexpensive machine that will allow me to duplicate, as well as originate (code cut) keys?

**The Answer:** YES!

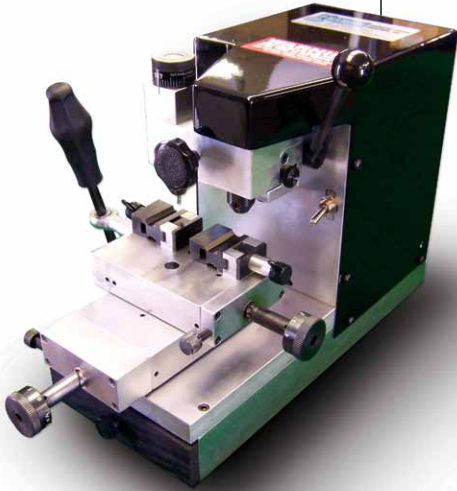

Using a simple space key and depth cam system, the DC-300 does it all. We use the same high quality construction we’re known for—steel and aluminum, sealed bearings, and a high-torque motor. We also added a wire or nylon deburring brush—your choice. Framon accuracy is built right in, always holding tolerances of .0005”—half of one thousandth, or one human hair! Duplication takes less than 20 seconds, and origination takes only a moment more. If you’re looking for a low cost way to take control of your key cutting program, then the DC-300 is your answer.

## FRAMON SD-1

You’ve already noticed it; more and more of your fleet vehicles are using side-milled high security keys. It started with BMW, Mercedes, and Lexus—now you’re seeing it in your Hondas, Kias, Hyundais, and more. Stop paying someone else to cut these keys for you! For about half the cost of other machines, we’ll send you the Sidewinder—complete with the reversible vises and carbide cutters you need to cut every high security automotive key you’ll come across. We use ball bearings throughout for extremely smooth movement, steel and aluminum construction for a lifetime service, and a high-torque motor because, well, we build the toughest machines money can buy! As with all Framon machines, our industry leading warranty and technical support only sweeten the deal.

## FRAMON SIDEWINDER SD-2

### Duplicates and originates high security automotive keys.

Framon's new Sidewinder 2 takes the original Sidewinder on a step further, allowing you to originate high security keys as well as duplicate.

#### Duplication

The Sidewinder 2 includes everything needed to duplicate just about any high security key in use today. Two sets of vises, six cutters, and three guides are included at time of purchase. With the Sidewinder 2, you'll be able to duplicate Mercedes, BMW, Lexus, Infinity, Kia, Jyundai, Chevrolet, Pontiac, Volvo and Saab just to name a few.

#### Code Cutting

Out of the box the Sidewinder 2 can originate Honda, Volkswagen & Audi keys. Depth and space 'rods' are furnished with the machine. The rods operate similar to cams to position the carriage properly for each cut needed. Changing the machine from a duplicator to a code machine takes about one minute. Depth & space rods will be available for almost all high security keys in use today. The rods screw into the machine & reach a positive stop for proper alignment each time without the need for adjustment. Once the rods are in place, the user simply tightens the lock screws and the machine is ready to code cut.

#### Setup Keys

Each pair of code rods is accompanied by a 'setup key'. This key helps the user properly set the depth of cut. The setup key is also used to prepare a blank for code cutting. The user actually duplicates all shallow cuts onto their blank as well as the tip cuts. Once the blank is prepped, code cutting can take place.

#### Genericode ME Included

A coupon for a full version of Genericode ME is included with the Sidewinder 2. The new owner can fax or mail in the form for the free program. Programs are shipped within one week of validation of purchase.

The Sidewinder 2 carries a suggested retail price of \$2,999.00. Customized packages for specific automotive brands can be accommodated only for single lines (Honda & VW accessories removed for a Chevrolet dealer for instance).

# OUR LATEST SIDEWINDER THROWS QUITE A CURVE...

(SPACE KNOB)

(DEPTH KNOB)

[FORTUNATELY, THE PRICE DOESN'T. **JUST \$2995**]

## CODE CUT AND DUPLICATE WITH THE *NEW* FRAMON SIDEWINDER SD-2 HIGH SECURITY KEY MACHINE.

Get the power of a duplicating and code-cutting machine in one. The Sidewinder-2 provides high-quality results time after time. Get six cutters and everything else you need to duplicate just about any high-security automotive key in use today. The Sidewinder-2 is equipped to code cut Honda, VW/Audi high-security keys right out of the box. Additional depth and space rods can be purchased for other models. Change from duplication mode to code cutting in less than a minute.

**GMT699**  
**GM Roll Pin  
Removal Tool**

Rolling pin

**HAT037**

Use to cut GM code cut keys on SD-2

**HAT5037**

Use to duplicate keys using SD-2

To view the Sidewinder-2 video, go to **HATAInc.com**. And for more information on the Sidewinder-2 and other great HATA products, stop by one of your local authorized HATA dealers, call us at **866-888-HATA** or visit us online at **HATAInc.com**.
